- The large group ACT class is optimal for students who are looking for a more affordable alternative to one-on-one private tutoring and for families who like the accountability and structure of weekly homework assignments over the course of 8-9 weeks.
- *The students who do the assigned homework between the sessions tend to score much higher on the ACT exams.*
- *The class will also be beneficial to those students who have already had private tutoring. Different practice materials will be used.*
- The classes will be team-taught by Cheryl Koslosky and Kelley Severance (*WAI ACT trained*).
